## Managing Director Message

In response to our Nation's Vision and enhanced economic growth, Alam Dingin Air Conditioning Engineering Sdn Bhd (ADAE) has consistently been involved in the development in HVAC engineering, procurement, construction and commissioning and is proud to be recognized as one of the best HVAC manufacturers in Oil and Gas industry in Malaysia.

With diversified, yet distinguished, construction and engineering capabilities ADAE has successfully completed several prestigious projects and continue to participate in large scale projects; both independently or in joint venture with international companies.

ADAE's future challenge in this dynamic market, is to take full advantage of its competitiveness and available opportunities. From this perspective, ADAE has been recognized with high competence in the market to the highest international standards.

We are all working together to support ADAE's Mission to deliver projects for the benefit of our clients, partners, employees and the society.

MOHAMAD AZAN BIN SULAIMAN  
Managing Director

## ORGANIZATION CHART

# VISION

A Reputable Malaysian Company With Malaysian Expertise in Providing HVAC Products and Services.

# MISSION

- Development of Core Capabilities In The Industry Of Heating and Ventilating Air conditioning To Achieve Competitive Advantages And Continuous Growth.
- Promotion Of Uncompromising Safety, Health and Environment Practice Throughout Company's Fleet.
- Adopting optimization Concept Of Air Conditioning system operation For Optimum Utilization.
- Continuously Improving Design, Operation and Maintenance of HVAC System To Maximize Value Creation.
- Ensure Customers satisfaction by Providing Quality Products and Services.

## OUR AFFILIATE AND DISTRIBUTION CHANNEL IN SARAWAK

**Alam Dingin (Sarawak) Sdn Bhd (ADS)** is a Malaysian company with Malaysian expertise in providing HVAC products and services for the oil and gas, industrial and residential sectors. ADS provides Engineering, Procurement, Construction, Commissioning and Maintenance services of any HVAC-R products. ADS was incorporated on the 15th March, 2016 by a group of experienced technical specialists to provide HVAC-R related services to oil and gas, petrochemical industries in Sarawak, Malaysia.

Since its incorporation, ADS has grown to be recognized as a specialist in providing total HVAC solution amongst several major players in the oil and gas industry; i.e.: PETRONAS, SHELL and Sapura Energy Petroleum, etc. In October 2020, ADS was awarded by Petronas Carigali Sdn Bhd with 4 years contract of Provision of Heating, Ventilation and Air-Conditioning (HVAC) maintenance services (Upstream and Downstream) for Sarawak region. Among the services provided by ADAE includes; HVAC system design and fabrication, installation, commissioning and maintenance of full HVAC system, HVAC control system and instrumentation and programmable logic control for HVAC system.

## INTRODUCTION

Alam Dingin Air Conditioning Engineering Sdn. Bhd. (ADAE) Incorporated on the 3rd August 2000, operated by group of experience Bumiputera expertise to provide Heating Ventilation Air Conditioning related works to the Oil, Gas and Petrochemical Industries in Malaysia.

**ADAE has been awarded Restricted Category (RC)** in Heating, Ventilation and Air Conditioning (HVAC) System Manufacturer by Petroleum Nasional Berhad (PETRONAS) in June 2009.

## Quality Policy Statement

### QUALITY POLICY STATEMENT

It is ADAE's corporate commitment to continuously provide high value products and services, which meet our customers' requirements at all times. **We shall sustain our values by adopting new technologies to ensure our products and services remain superior, competitive and reliable. We will also maintain good relationship with our suppliers to ensure their continued commitment towards quality products and services for our company.**

We have formulated our quality management system to meet the ISO 9001:2008 requirement.

It is our duty to achieve the following quality objectives :

- i) Meeting customers' satisfactions
- ii) On time delivery with quality services
- iii) Compliance to codes, standards and specifications
- iv) To deploy qualified staff to meet or exceed customers' requirements
- v) Full employees' participation in Quality Management System for staff improvement
- vi) Acquire Quality Business with High Profit Margin

It is the responsibility of the Managing Director and the management to ensure that the above quality objectives are met.

The emphasis on quality shall be of paramount importance to ADAEs' corporate culture.

**MOHAMAD AZAN BIN SULAIMAN**  
Managing Director

Date: 10 June 2012

## Health, Safety And Environment Policy

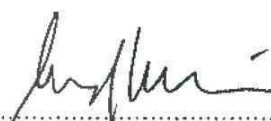

### HEALTH, SAFETY AND ENVIRONMENT (HSE) POLICY

ALAM DINGIN AIR-CONDITIONING ENGINEERING SDN. BHD.  
(ADAE) HSE Policy is to conduct its business in a safe & healthy manner to ensure the health and safety of employees, customers, contractors and the public as well as to protect and preserve the environment. ADAE will strive to prevent all incidents, injuries, occupational illnesses and environmental pollution through involvement of all ADAE's employees.

We are committed:

- To provide safe and healthy working condition;
- To prevent injury and ill health to the employees, customers, contractors and public;
- To fulfil all the applicable HSE legal and other requirements;
- To eliminate hazards and reduce HSE risks; and
- To continual improvement of our OHS management system through active consultation and participation of workers

  
.....

## Alcohol And Drug Abuse Policy

### ALCOHOL AND DRUG ABUSE POLICY

This policy is a part of ALAM DINGIN AIR-CONDITIONING ENGINEERING SDN. BHD. (ADAE) approaches to promote a safe and conducive working environment. In conjunction with health promotion activities and the mental and physical wellbeing, ADAE:

- Strictly prohibits the illegal use, possession, distribution or sale of drugs and controlled substances at all times within or outside its premises;
- Strictly prohibits the consumption of alcohol within its premises during business hours;
- Shall have the right to conduct random testing on employees to check the use of drugs, alcohol or substance abuse; and
- Strictly prohibit adulteration and / or switching of any test sample

Employees found to be in possession or under the influence of drugs and alcohol are subjected to disciplinary action that includes immediate termination of employment with the company.

**MOHAMAD AZAN BIN SULAIMAN**  
Managing Director  
Oktober 15, 2018

Revision: 02

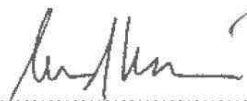

## Stop Working Policy

### STOP WORK POLICY

ALAM DINGIN AIR-CONDITIONING ENGINEERING SDN. BHD.  
(ADAE) believes that no work to be performed by us in the  
execution of our daily business operation is so urgent that we  
cannot take time to do it safely.

- Stop work shall be implemented when work activities are imposing an imminent threat to the safety and health of the employees or that of others or adverse impact to the environment;
- The individual's decision to stop work will has the full support of management; and
- Where there is any doubt whether work should stop, employees including customers and contractors should immediately notify the hazardous situation to their immediate superior for assessment of the hazardous situation.

**MOHAMAD AZAN BIN SULAIMAN**  
Managing Director  
October 15, 2018

- **HVAC Control System and Instrumentations**
- **Programmable Logic Control for HVAC**
- **Training**

## CAD CAM ENGINEERING DESIGN

Our design expert is using the Computer-aided drafting (CAD) - Inventor® 3D CAD for design, modification, analysis, and optimization of a design work. We use this software to increase productivity of the designer, improve quality of the design, improve communication through documentation and create a database for manufacturing process.

Computer-aided manufacturing (CAM) – CAD output usually in the form of electronic files is used for documentation and manufacturing operation process in our manufacturing and fabrication factory. For cutting and machining process, Amada CNC Laser Cutting is used during fabrication work by converting the CAD file to the end product.

## Maintenance and Services

## PLC Programming (Programme Logic Control)

## ADVANCED PLC FEATURES

In today's world of the Industrial Internet of Things (IoT), and Industry 4.0 programmable logic controllers are called upon to communicate data via Web browser, connect to databases via SQL, and even to the cloud data via MQTT.

ADAE designed a PLC-based HVAC control system which is able to deliver a solution that outperforms other packaged systems in terms of annual maintenance contract costs and ease of use. Plant operations personnel have reported improved performance of the HVAC controls in the process areas and are benefiting from better system awareness and operability. Maintenance personnel are able to comfortably understand and support the system, resulting in increased plant performance and reduced cost of ownership.
